

## **WEEKLY REPORT**

**Date: 2/2/2015**

Group number and Name: Dec 15-20 Wind Turbine Group

Client/Advisor: Dr. Ajjarapu

Attendees/Role:

### **✓ Past week accomplishments**

- ❖ We met with Dr Ajjarapu to discuss our different leads for potential projects
- ❖ Alec Walczak contacted Alliant energy to attempt to work out a plan for a distribution planning project
- ❖ Alliant said they would attempt to come up with a project idea as soon as possible.
- ❖ Joe Near contacted Dashiell to attempt to work out a plan for a renewable energy project
- ❖ Dashiell contacted Quanta Technologies for help
- ❖ Quanta Technologies said they would look into it
- ❖ Shane Thompson contacted G&W
- ❖ G&W asked for a description of a power-related project

### **✓ Plan for coming week**

- ❖ We hope to hear back from one of the three companies sometime this week so we can have a solid project idea and begin work
- ❖ We plan to meet with Dr Ajjarapu at least one time this week in order to continue to come up with ideas for how to approach this situation

### **✓ Pending issues**

- ❖ We still technically do not have a project, but are hopeful that at least one of these companies will be able to come through for us

- ❖ We are a little concerned about the time remaining, as we would like to have something to report on ASAP

✓ **Individual contributions**

- ❖ Alec Walczak contacted Alliant energy to attempt to work out a plan for a distribution planning project
- ❖ Joe Near contacted Dashiell to attempt to work out a plan for a renewable energy project
- ❖ Shane Thompson contacted Schneider electric but did not receive a reply; also contacted G&W to hopefully work out a plan for a power project
- ❖ Brad Bender contacted ITC but did not receive a reply

✓ **Individual hourly contribution**

<b><u>NAME</u></b>	<b><u>Hours this week</u></b>	<b><u>HOURS cumulative</u></b>
Joe	4	8
Shane	4	8
Alec	4	8
Brad	4	8

✓ **Comments and extended discussion**

We hope to get a project as soon as possible. Dr Ajjarapu seems pretty hopeful that things will fall into place.
